**28<sup>th</sup> May to 8<sup>th</sup> June 2019**

**THEME: “Zero child deaths due to childhood diarrhoea”**

**UHTC, KALYAN NAGAR – ACTIVITY REPORT**

**Date:** 7<sup>th</sup> June 2019

**Venue:** Anganwadi Kendra, Dodda Banaswadi, Kalyan Nagar.

**Speakers:** Dr. Brunda N.K, Dr. Netra. G

On the occasion of celebrating the “INTENSIFIED DIARRHOEA CONTROL FORTNIGHT” an awareness program was organized at Anganwadi Kendra, Dodda Banaswadi, Kalyan Nagar on a Friday 7<sup>th</sup> June 2019.

Around 60-70 antenatal, lactating and reproductive age group women along with their children and Anganwadi teacher Mrs. Muniyamma of Dodda Banaswadi Anganwadi had gathered for the session.

The first session was started by Dr. Brunda N K – Health talk was given on the following topics – Introduction, definition of diarrhoeal, clinical types of diarrhoeal diseases, problem statement, and epidemiological determinants.

Second session was continued by Dr. Netra G - Health talk was given on the following topics – Prevention and control of diarrhoea, preparation and administration of ORS and demonstration of hand washing practices.

Lastly an interactive session between the audience and speakers was held and the queries by the audiences were answered. Program was concluded by giving refreshment to the audience.
