315	Block 3		SUNDAY								
316	Block 3	Week 14	Monday		AN31.5/31.3 Anatomical basis of 3rd 4th and 6th Nerve Palsies, Horner's syndrome		IM10.21 Describe and discuss the indications for and insert a peripheral intravenous catheter IM10.22 Describe and discuss the indications, demonstrate in a model and assist in the insertion of a central venous or a dialysis catheter IM10.23 Communicate diagnosis treatment plan and subsequent follow up plan to patientsT/L - SGD 2Hrs	B -Surgery SU17.5 Radiological investigation in Head Injuries.SGD.	C - OG13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito-anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor.SGD	D -PediatricsPE20.4 Assessment of a normal neonate(small group discussion)	

**East Point College of Medical Sciences and Research Center**

**III MBBS Part 1 2019 Batch Time Table**

SL No	Block	Week	Day	Clinical posting 9am - 12 noon	12noon - 1 pm(Lecture)	Lunch Break	2pm - 4pm (SGD/Practicals in batches A)	2pm - 4pm (SGD/Practicals in batches B)	2pm - 4pm (SGD/Practicals in batches C)	2pm - 4pm (SGD/Practicals in batches D)	4pm - 5pm (SDL)
317	Block 3	Week 14	Tuesday		CM 20.4 -CLINICAL ESTABLISHMENT AND ITS IMPLICATIONS T/L-LECTURE		A- PediatricsPE20.4 Assessment of a normal neonate(small group discussion)	IM10.21 Describe and discuss the indications for and insert a peripheral intravenous catheter IM10.22 Describe and discuss the indications, demonstrate in a model and assist in the insertion of a central venous or a dialysis catheter IM10.23 Communicate diagnosis treatment plan and subsequent follow up plan to patientsT/L - SGD 2Hrs	C- Surgery. SU17.5 Radiological investigation in Head Injuries.SGD.	D - OG13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito-anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor.SGDOBG	
318	Block 3	Week 14	Wednesday		PE 28.19, PE 28.20 etio-pathogenesis, clinical features, diagnosis, management and prevention of asthma in children, Counsel the child with asthma on the correct use of inhalers in a simulated environment (SGD)		A- OG13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito-anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor.SGDOBG	B -PediatricsPE20.4 Assessment of a normal neonate(small group discussion)	IM10.21 Describe and discuss the indications for and insert a peripheral intravenous catheter IM10.22 Describe and discuss the indications, demonstrate in a model and assist in the insertion of a central venous or a dialysis catheter IM10.23 Communicate diagnosis treatment plan and subsequent follow up plan to patientsT/L - SGD 2Hrs	D -Surgery SU17.5 Radiological investigation in Head Injuries.SGD	
319	Block 3	Week 14	Thursday		RD1.2 Describe the evolution of Radiodiagnosis. Identify various radiological equipments In the current era- T/L-Small Group Discussion		A -Surgery SU17.5 Radiological investigation in Head Injuries.SGD	B - OG13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito-anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor.SGDOBG	C -PediatricsPE20.4 Assessment of a normal neonate(small group discussion)	IM10.21 Describe and discuss the indications for and insert a peripheral intravenous catheter IM10.22 Describe and discuss the indications, demonstrate in a model and assist in the insertion of a central venous or a dialysis catheter IM10.23 Communicate diagnosis treatment plan and subsequent follow up plan to patientsT/L - SGD 2Hrs	
320	Block 3	Week 14	Friday		PS 19.3 Describe and discuss the basic legal and ethical issues in psychiatry PS 19.4 Enumerate and describe the salient features of the prevalent mental health laws in India		SU17.4 Describe Pathophysiology, mechanism of head injuries.SU17.5 Describe clinical features for neurological assessment and GCS in head injuries. Lecture		OBG (3pm - 4pm) LectureOG14.2 Discuss the mechanism of normal labor. Define and describe obstructed labor, its clinical features; prevention; and management		Anesthesiology AS2.2 -Enumerate the indications, describe the steps and demonstrate in a simulated environment, Advanced Life Support in adults - SGD
321	Block 3	Week 14	Saturday		Anesthesiology AS2.2 -Enumerate the indications, describe the steps and demonstrate in a simulated environment, Advanced Life Support in adults - SGD						

**East Point College of Medical Sciences and Research Center**

**III MBBS Part 1 2019 Batch Time Table**

SL No	Block	Week	Day	Clinical posting 9am - 12 noon	12noon - 1 pm(Lecture)	Lunch Break	2pm - 4pm (SGD/Practicals in batches A)	2pm - 4pm (SGD/Practicals in batches B)	2pm - 4pm (SGD/Practicals in batches C)	2pm - 4pm (SGD/Practicals in batches D)	4pm - 5pm (SDL)
322	Block 3		SUNDAY								
323	Block 3	Week 15	Monday		PY10.17 Physiology of pupil and light reflexes PY10.18/AN30.5 Physiological basis of lesions in visual pathway/ effect of pituitary tumors on visual pathway		IM10.25 Identify and describe the priorities in the management of ARF including diet, volume management, alteration in doses of drugs, monitoring and indications for dialysis IM10.26 Describe and discuss supportive therapy in CKD including diet, anti hypertensives, glyceemic therapy, dyslipidemia, anemia, hyperkalemia, hyperphosphatemia and secondary hyperparathyroidismT/L - SGD 2Hrs	B -Surgery. SU17.10 Demonstrate Airway maintenance. Recognize and manage tension pneumothorax, hemothorax and flail chest in simulated environment.DOAP	C OG13.4 Demonstrate the stages of normal labor in a simulated environment / mannequin and counsel on methods of safe abortion. SGD	D -PediatricsPE20.5 Counsel / educate mothers on the care of neonates(small group discussion)	
324	Block 3	Week 15	Tuesday		CM 20.4 -HUMAN ORGAN TRANSPLANTAION ACT AND ITS IMPLICATION T/L-LECTURE		A- PediatricsPE20.5 Counsel / educate mothers on the care of neonates(small group discussion)	IM10.25 Identify and describe the priorities in the management of ARF including diet, volume management, alteration in doses of drugs, monitoring and indications for dialysis IM10.26 Describe and discuss supportive therapy in CKD including diet, anti hypertensives, glyceemic therapy, dyslipidemia, anemia, hyperkalemia, hyperphosphatemia and secondary hyperparathyroidismT/L - SGD 2Hrs	C- Surgery. SU17.10 Demonstrate Airway maintenance. Recognize and manage tension pneumothorax, hemothorax and flail chest in simulated environment.DOAP	D -OG13.4 Demonstrate the stages of normal labor in a simulated environment / mannequin and counsel on methods of safe abortion. SGD	
325	Block 3	Week 15	Wednesday		PE 34.9, 34.10, 34.12 Interpret blood tests in the context of laboratory evidence for tuberculosis, various samples for demonsting the organism eg Gastric Aspirate, Sputum , CSF, FNAC, indications and discuss the limitations of methods of culturing M.Tuberculi (SGD)		A-OG13.4 Demonstrate the stages of normal labor in a simulated environment / mannequin and counsel on methods of safe abortion. SGD	B -PediatricsPE20.5 Counsel / educate mothers on the care of neonates(small group discussion)	IM10.25 Identify and describe the priorities in the management of ARF including diet, volume management, alteration in doses of drugs, monitoring and indications for dialysis IM10.26 Describe and discuss supportive therapy in CKD including diet, anti hypertensives, glyceemic therapy, dyslipidemia, anemia, hyperkalemia, hyperphosphatemia and secondary hyperparathyroidismT/L - SGD 2Hrs	D -Surgery. SU17.10 Demonstrate Airway maintenance. Recognize and manage tension pneumothorax, hemothorax and flail chest in simulated environment.DOAP	

**East Point College of Medical Sciences and Research Center**

**III MBBS Part 1 2019 Batch Time Table**

SL No	Block	Week	Day	Clinical posting 9am - 12 noon	12noon - 1 pm(Lecture)	Lunch Break	2pm - 4pm (SGD/Practicals in batches A)	2pm - 4pm (SGD/Practicals in batches B)	2pm - 4pm (SGD/Practicals in batches C)	2pm - 4pm (SGD/Practicals in batches D)	4pm - 5pm (SDL)
326	Block 3	Week 15	Thursday		RD1.6 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorders in surgery- T/L-Small Group Discussion		A -Surgery. SU17.10 Demonstrate Airway maintenance. Recognize and manage tension pneumothorax, hemothorax and flail chest in simulated environment.DOAP	B - OG13.4 Demonstrate the stages of normal labor in a simulated environment / mannequin and counsel on methods of safe abortion. SGD	C -PediatricsPE20.5 Counsel / educate mothers on the care of neonates(small group discussion)	IM10.25 Identify and describe the priorities in the management of ARF including diet, volume management, alteration in doses of drugs, monitoring and indications for dialysis IM10.26 Describe and discuss supportive therapy in CKD including diet, anti hypertensives, glyceric therapy, dyslipidemia, anemia, hyperkalemia, hyperphosphatemia and secondary hyperparathyroidismT/L - SGD 2Hrs	
327	Block 3	Week 15	Friday		PS 19.5 Describe the concept and principles of preventive psychiatry and Describe the concept and principles of preventive psychiatry PS 19.6 Enumerate and describe the identifying features and the principles of participatory management of mental illness occurring during and after disasters		SU17.7. Describe the clinical features of soft tissue injuries. Chose appropriate investigations and discuss the principles of management. Lecture		OBG (3pm - 4pm) LectureOBG (3pm - 4pm) LectureOG14.2 Discuss the mechanism of normal labor, Define and describe obstructed labor, its clinical features; prevention; and management		Anesthesiology - AS7.4 - Observe and describe the basic setup process of a ventilator - SGD
328	Block 3	Week 15	Saturday		Anesthesiology - AS7.4 - Observe and describe the basic setup process of a ventilator - SGD						
329	Block 3		SUNDAY								
330	Block 3	Week 16	Monday		Internal Assessment CM		Internal Assessment Practicals A-FM	Internal Assessment - D - CM	Viva Voce- B - ENT	Viva Voce- C- Ophtho	
331	Block 3	Week 16	Tuesday		Internal Assessment FM		Internal Assessment Practicals B FM	Internal Assessment - C- CM	Viva Voce- A - ENT	Viva Voce- D Ophtho	
332	Block 3	Week 16	Wednesday		Internal Assessment ENT		Internal Assessment Practicals C-FM	Internal Assessment- B- CM	Viva Voce- D - ENT	Viva Voce- A Ophtho	
333	Block 3	Week 16	Thursday		Internal Assessment Ophthalmology		Internal Assessment Practicals D-FM	Internal Assessment- A- CM	Viva Voce- C- ENT	Viva Voce- B Ophtho	
334	Block 3	Week 16	Friday		Internal Assessment Pediatrics						
335	Block 3	Week 16	Saturday		Internal Assessment OBG		Internal Assessment				
					March 24th - World TB Day						
					April 7th World Health Day						
					May 31st World No Tobacco Day						
					June 5th Environment Day						
					July 29th World ORS Day						
					August 1-8 World Breastfeeding week						
					September 21st World Alzheimer's Day						
					October 10th World Mental Health Day						
					November 14th World Diabetes Day						
					December 1st World AIDS Day						
					January 30th World Leprosy Day						
					<b>PS: The Above World Health Days will be observed once the commencement of the Academic Year</b>
